Partner & Associate Compensation Systems

Strategy

Cultural Effectiveness Assessments

Results

- Created multiple pro forma models outlining financial results based on various strategies which were used to assist firms with their strategic growth plans, and presented the models to firm leadership teams.
- Assisted in multiple law firm mergers and acquisitions, which included the development of target lists, financial analyses and modeling, merger negotiations, compensation analyses, and integration at all levels across combined firms.
- Built practice group profitability analyses that enable firms to evaluate their suite of practices, ensuring they align with overall strategic objectives.
- Compiled "Go-To-Market" strategies including analyzing the firm's internal data for ideal client base (factoring in profitability), researching macro/micro industry trends within the segment, constructing competitive law firm analyses, and debriefing with executive leadership teams.
- Researched Private Equity industry trends and growth opportunities in various regions to assist a firm in deciding whether or not to open a new office.
